We are delighted to share the news that the highly anticipated Turnitin Draft Coach tool is now accessible to all esteemed staff & students with active Sunway accounts, effective August 1, 2023.

Draft Coach + your Turnitin solution (for instructors) | Turnit...

1. What is Turnitin Draft Coach?

Turnitin Draft Coach gives you access to **Turnitin Similarity Reports, Citations Reports, and Grammar Guide** right where you draft your work — directly in **Microsoft Word online**. This means that you can draft your work in Microsoft Word online (or copy and paste your work into Microsoft Word online from another word processor) and then use the information in Turnitin Draft Coach to help you improve your writing prior to submitting a final copy to your teacher. The Turnitin Draft Coach add-on is meant to help you navigate the issues of similarity, plagiarism, and grammar as you write and revise your assignments.

2. How can my students access Turnitin Draft Coach?

Turnitin Draft Coach can be used as an add-on application within Microsoft Word online. Turnitin Draft Coach cannot be used on desktop version of Microsoft Word.

3. Can students submit their results to me?

There is currently no way for students to share their results with instructors. Draft Coach is intended to be a learning tool to guide students in improving their writing skills before submitting their final draft to their instructors in Turnitin. For student submissions, please use the Turnitin LTI assignment via eLearn.

4. What repositories does Turnitin Draft Coach match against?

Similarity Check will search your students' drafts against our global student repository, journals and publications, your institution's private repository, and a vast collection of archived and current internet pages.

5. Does Turnitin store the submissions?

No, Turnitin Draft Coach does not submit papers to the Turnitin repository or your institution's private repository if you have one. Students are safe to use Draft Coach and not match to their own paper when they finally submit to Turnitin.

6. How to use Draft Coach?

- Understanding Draft Coach (<https://help.turnitin.com/integrity/student/draft-coach/understanding-draft-coach.htm>)
- How to use Draft Coach (<https://help.turnitin.com/integrity/student/draft-coach/using-draft-coach.htm>)

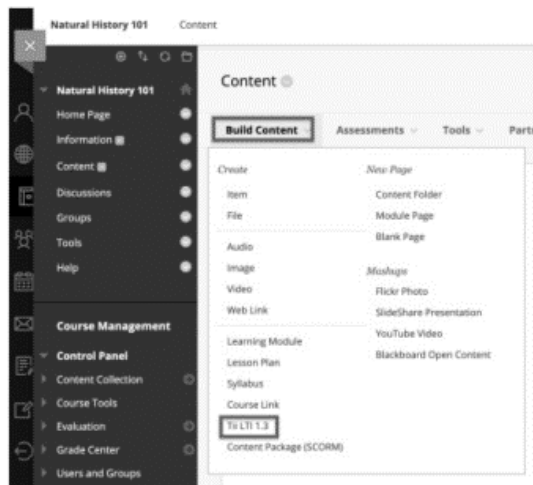

Turnitin is moving to a new way of integrating with eLearn for better security and a simplified interface via LTI technology. Hence, we have migrated the Turnitin Direct Assignment to the Turnitin LTI assignment on **1st August 2022**.

Turnitin is a web-based plagiarism prevention system and it is available to the instructor to use within eLearn. It checks student papers and written assignments for originality against Internet sources, other student submissions, academic databases and more at the same time students are electronically submitting them to the instructor.

It is important to note that Turnitin does not directly identify plagiarism. Instead, it provides a report that allows students and staff to see where plagiarism may have occurred. It is up to the instructor to find the best way to make use of it in their course, and whether being read by the student or the instructor, the report must be interpreted by the reader to determine if the matching text indicates potential plagiarism or sound academic writing. Turnitin can be used as a deterrent but also as an educational tool to teach students how to work with sources and to improve paraphrasing and quoting skills.

What will be the changes?

1. "Turnitin Direct Assignment" will be replaced with "Turnitin LTI Assignment" which will be located in the Build Content tab with a more user-friendly interface.

2. **Submission receipts will no longer be emailed to students.** Following a submission, students are presented with a banner within their assignment dashboard that provides a link to download a submission receipt. They can also access their assignment dashboard at any time to download a copy of submission receipt using the receipt icon.

3. **New Analytic Dashboard for the instructor.** It gives the instructor valuable insights into how students have engaged with their assignments.

FAQs:

1. Can existing Turnitin Direct Assignment still be accessible via eLearn?

Existing Turnitin Direct Assignment created before 1st Aug 2022 will continue to work.

2. Can the instructor still be able to create Turnitin Direct Assignment after 1st Aug 2022?

No. The instructor should create a new Turnitin LTI assignment which is located in the Build Content tab.

3. What should an Instructor do if they copy their Blackboard Learn course and those previous Turnitin Direct assignments don't work?

Lecturers are advised not to copy the Turnitin assignment from one course to another course as it will cause the Turnitin link to break. In this case, any new Turnitin LTI assignments would need to be created for any previous Turnitin Direct assignments.

4. What new feature is available for instructors?

Access to additional assignment-level insights within the LTI Inbox as below. Also, the ability for instructors to request paper deletions.

Assignment Analytics: The statistics show how students have engaged with their assignment and give instructors actionable insights into the similar findings found within an assignment. With a visual view of student progress, it can allow instructors to reflect on what is working within their class and how to adapt.

their strategy to meet learning aims. Read more about the features of the Learning Analytics Dashboard (<https://help.turnitin.com/feedback-studio/lti/instructor/statistics/learning-analytics-dashboard.htm#features>).

Document Flags: Added the availability to view which documents have document Flags in them directly from the LTI Assignment Inbox. Now, you can focus your investigations on problem papers without having to look through all of the submissions in an assignment. Read more about the feature: the Document Flags (<https://help.turnitin.com/feedback-studio/blackboard/lti/instructor/flags/viewing-document-flags.htm>).

5. Where can instructors locate the option to create LTI assignments in elearn?

The LTI integration can be found as an option within the Build Content drop-down menu.

6. Are email receipts still sent to students following their submission?

No. Turnitin no longer sends the email submission receipts to the students with the new Turnitin LTI assignment. However, following a submission students are presented with a banner within their assignment dashboard that provides a link to download a submission receipt. They can also access it

assignment dashboard at any time to download a copy of the submission receipt using the receipt icon.

7. Some instructors use multi-part assignments. Will this option still be available with the Turnitin LTI assignment?

No. These features will be removed in the Turnitin LTI assignment.

8. Previously there was a grade sync function, where all grades could be re-synced between Turnitin and elearn; however, I can't seem to locate a sync button within the LTI integration experience?

With the new Turnitin LTI assignment, the grade synchronization is automatic.

9. How to delete a paper from the Turnitin database permanently?

To request the permanent deletion of a paper submitted to Turnitin, instructors can make a permanent deletion request directly within the Assignment Inbox. A request will be sent to the Turnitin administrator for your institution. They'll then review the request and approve it if they agree the paper should be deleted. Click here (<https://help.turnitin.com/feedback-studio/turnitin-website/instructor/paper-deletions.htm>) for the instruction.

10. What happens to the paper once I've sent a request?

The paper will be moved to the 'Pending Requests' view within the Assignment Inbox. If you use the All Papers view, an icon  will be shown to indicate the paper is pending deletion. Nothing will happen to the paper itself until your Turnitin Administrator has approved the request. If Turnitin finds matches to the paper before the administrator has approved the request, the paper will still show in Similarity Reports.

11. My Turnitin admin approved my request! What happens now?

The paper will no longer appear in any new Similarity Reports.

- a. It vanishes from the Assignment Inbox.
- b. Any associated grading is also deleted.
- c. If you regenerate a Similarity Report (<https://help.turnitin.com/feedback-studio/turnitin-website/instructor/the-similar-report/generating-a-new-similarity-report.htm>) for a submission where this paper matched, it will no longer appear within that report.
- d. A 30-day grace period starts where you can still recover a paper if it was deleted accidentally. Once this period has passed, it can't be recovered in any circumstance.
